

RRT LOLLIES 50g

The Energy Booster

RRT's Lollies will restore equilibrium no matter the age of the recipient.

All of us know what it is like to run out of energy and what better way for a quick boost than a lolly, simple, but effective.

FOR BUSINESS USE

Keep those energy levels up – aim for 100/100 productivity.

Looking for a new way to please your clients or energise your staff to be more productive? Here it is.

RRT Lollies evolved as a result of a special request from emergency service crews.

Emergency service personnel are often exhausted, having to work for long hours to avert disaster and going without food for long periods. Lollies help to bridge the gap, keeping the mouth moist and boosting energy levels.
